Presentation will start at **2:05pm**

Celebrating **10 Years** of GovCMS

Online Session: D11 Information Session & Q&A

Presented by Yvonne Norris

GovCMS

Acknowledgement of Country

We begin by acknowledging the traditional owners and custodians of the land in which we live and work.

I extend that acknowledgement to their continuing connection to country, waters and community.

I pay my respects to elders past and present, and extend that respect to all Aboriginal and Torres Strait Islander peoples.

How to use Slido

Joining on your device

Join online via slido.com and entering our event hashcode: **#D11informationSession**
OR scan the QR code.

Engaging through the Q&A

When you join Slido, you will be able to engage with the session by asking questions and/or sharing thoughts, as well as interacting with other people's input. The Q&A function allows users to react, upvote, downvote, and comment on incoming posts to help formulate stronger ideas and help us gain better insight on how well the session is resonating with you.

Main Distro changes

Adding BOOK module

- Is being removed from Drupal 11 Core
- Currently in use by 35+ projects
- Contrib equivalent will be added to the distribution

Removing the PANELS module

- Very minimally maintained
- Not longer developed by its maintainers
- Since Drupal 8, websites have been encouraged to use Layout Builder instead
- Panels was mostly used in D7 and early D8 websites

Removing PAGE MANAGER module

GovCMS

Website Upgrades (SaaS process)

1. [We] Create D11 feature branch
2. [You] Identify and fix any issues
3. [We] Merge D11 website to become LIVE

via Service Desk ticket

GovCMS

Website Upgrades (PaaS process)

PaaS owners are responsible for their own upgrade process and timeframes

- We want to help you where we can
    - This is also very tricky as you maintain your own code base
    - Have own internal processes
- Share the D11 compatibility reports and process
- If you're struggling with your maintenance plan
  → Set up a time – let's work together
